

This year ACE conference was once again another great success. I was able to receive a scholarship provided by the ACE board that allowed me to attend. The keynote speaker was definitely one of the highlights of the conference. I was an attendee as well as a presenter and I must say that as a presenter for the past few years this was one of the best turnouts for our Step-Up presentations and the feedback that we received was nothing but positive. Several of the workshops that I was able to attend were extremely beneficial and information that will be valuable and able to apply to my current position here at juvenile detention. I would like to thank the committee for allowing me the opportunity to attend with the help of the scholarship and look forward to attending for several years to come.
